

Product Information

ClearSlip #2 Silicone Lubricant

Formulation: Silicone dispersed in an odorless solvent...more cost-effective than aerosol

Formulated with Silicone to reduce sticking & friction

Clearslip #2 Silicone Lubricant is formulated to prevent sticking & allow materials to slide easier. The fluid is clear, colorless and odorless with a viscosity of water. Clearslip #2 Silicone Lubricant is comprised of silicone fluid (Polydimethylsiloxane CAS # 63148-62-9) dispersed in an odorless solvent. The solvent acts as a carrier to impart a light film of silicone on the surface to which it is applied. The silicone film provides excellent lubricity and protection against corrosion.

Clearslip #2 Silicone Lubricant is compatible with a wide array of surfaces including plastic, vinyl, saran, rubber and foam. The silicone film is non-staining and inert. A fine spray is all that is required to keep materials moving freely on bins, chutes, conveyors, tabletops, glides, assemblies and other surfaces. Spray cutting blades and knives to prevent fusing, Cool Blades and to allow Clean Cuts.

Compare **Clearslip #2 Silicone Lubricant** with any aerosol silicone spray. It will do a better job, and cut your Silicone Costs by 50% or more.

Note: Clearslip #2 Silicone Lubricant should not be used for applications near an open flame or heat source

Properties:

- Silicone fluid dispersed in low vapor pressure isoparaffinic solvent
- Imparts a light film of silicone on surface to provide lubricity
- Clear, colorless, odorless fluid
- Ready-to-use...no mixing required
- Safe on virtually all surfaces including plastics, vinyls, rubbers and foams.
- Will not freeze in cold weather
- Hydrophobic

Environmental Specifications:

- Formulated with VOC Exempt Polydimethylsiloxane
- Contains no CFC's or ozone depleting chemicals
- Contains no hexane
- Contains no acetone
- RoHS compliant

Specifications

Product Code	CS#2
Appearance	Clear, odorless fluid
Availability	5-gallon cube or pail 55-gallon drum
Weight	6.5 lbs. per gallon
Solubility	Oil Soluble: will not mix with water
Flammability	HMIS Rating 2
Active Ingredients	Pure Dimethyl Silicone Fluid Does not contain Chlorinated Solvents

Uses Include:

- In Mattress Manufacturing Industry, spray tabletops to prevent plastic from sticking & allow mattresses to slide on table tops
- Prevents sticking on chutes, bins, walls and surfaces. Keeps material moving and prevents adhesion of greases and oils.
- Lubricates surface of wood, metal, plastic, vinyl, rubber, leather etc.- eliminates squeaking
- Prevents glue from adhering and eliminates sticking when sprayed on rails, belts, stamps and grip fingers of labeling equipment.
- Allows cellophane, pilofilm, saran and vinyl polyethylene to move freely over sprayed surfaces.
- Prevents jamming of equipment caused by glues, adhesives, waxes etc.
- Eliminates carbon build-up on sealers and allied equipment. Materials will not adhere.

Packaging

5-gallon cube (18.9 liters)

55-gallon drum (208 liters)

FOB Phila, PA USA
