

Paintable Silicone #40 Moulder Lubricant

Formulated for Wood Molders and Planers...will not interfere with paintability

Paintable Silicone #40 Moulder Bed Lubricant provides slide on molder beds but will not interfere with paintability.

Paintable Silicone #40 Moulder Bed Lubricant is made specifically for the furniture and wood working industry. It is used as a bed lubricant for Molders, Planers & Shaping Machinery. **Paintable Silicone #40 Moulder Bed Lubricant** is formulated with an organo-modified silicone that will not interfere with paintability like conventional silicones. Wood can be painted, glued, or stained without fisheyes or problems with finish. A fine mist is all that is required to prevent sticking and keep materials moving freely.

Paintable Silicone #40 Moulder Bed Lubricant is also used on Blades, Knives and Saws. This reduces friction, providing a better cut and prolonging the life of the equipment. **Paintable Silicone #40 Moulder Bed Lubricant** is clear, colorless, and odorless with a viscosity of water. It is easily applied with a hand sprayer.

Features

<ul style="list-style-type: none"> • Prevents Sticking • Bed Lubricant • Provides a Better Cut 	<ul style="list-style-type: none"> • Paintable • Will Not Cause "Fisheyes" • Reduces Friction
---	--

Spray molder to provide better cut.

Prevents sticking & reduces friction.

Properties

Product Code	PS#40
Form	Liquid
Appearance	Clear-Colorless
Color Stability	Excellent
Resistance to Degradation	Excellent
Solubility	Oil Soluble- It is Not Water Soluble
Availability	5-gallon cube w/ EZ Pour Spigot. 55-gallon drums
Flammability	HMIS Rating 2

CAS Information

Petroleum Solvent.....	CAS-64742-48-9
Organo-Modified Silicone.....	CAS-68037-76-3

Packaging

5-gallon cube.....	18.9 liters
55-gallon drum.....	208 liters
FOB Phila, PA U.S.A.
