

Blue Coat 5000 Welding Anti Spatter

Water-based Welding Anti-Spatter – prevents hot spatter from adhering to metal substrate

Prevents Hot Spatter from sticking to the surface – no grinding necessary

Blue Coat 5000 is a one-part, 100% Liquid Anti-Spatter; no mixing is required. It contains Synthetic Release Agents to prevent hot spatter from sticking. It's easy to use. Spray on the surface to be protected. Spatter falling on treated area will not adhere – simply brush spatter away.

Blue Coat 5000 Anti-Spatter Does Not contain any Silicones or Ozone depleting chemicals. **It is Paintable.** Compared with any aerosols, Blue Coat 5000 will outperform these products while providing an average Savings of 40% or more.

Being a Water-Based Product, **Blue Coat 5000 Anti-Spatter contains no flammable ingredients and no odorous solvents;** it is a much better choice for applications in enclosed environments.

Features

- 100% Liquid Anti-Spatter
- Water-based
- One-Part:
- Non-Flammable
- No Odor
- No Solvents

Specifications

Appearance.....	Blue Liquid
Odor.....	Very Mild
Water –Solubility.....	Soluble
Specific Gravity.....	1.06
Freezing Point.....	0°C / 32°F. <i>If frozen, return to room temperature.</i>
Flash Point.....	227°C 440°F <i>Test Method: COC</i>
Flammable.....	No

Packaging

5-gallon cube
55-gallon drum

Contents

Ingredient Description	CAS Number
Polyalkylene Glycol	9038-95-3
H2O	
Triethaloamine	102716
Blue Dye
