

Blue Coat 5000 Anti Spatter

Formulated to Prevent Hot Spatter from Sticking to Metal Substrates

Prevents Hot Spatter from sticking to the surface – no grinding necessary

Blue Coat 5000 is a one-part - 100% Liquid Anti-Spatter; no mixing is required. It contains Synthetic Release Agents to prevent hot spatter from sticking. It's easy to use. Spray on the surface to be protected. Spatter falling on treated area will not adhere – simply brush spatter away.

Blue Coat 5000 Does Not contain any Silicones or Ozone depleting chemicals – **It is Paintable.** Compared with any aerosols, **Blue Coat 5000 will outperform these products while providing an average Savings of 40% or more.**

Being a Water-Based Product, **Blue Coat 5000 contains no flammable ingredients and no odorous solvents;** it is a much better choice for applications in enclosed environments.

FEATURES

HOW TO USE

Blue Coat is available in 5 Gallon Cubes & 30 and 55 Gallon Drums. E-Z Pour Spigots and Drum Pumps are available with the initial order.

It's easy to use. Dispense Blue Coat from the container into a spray bottle (also available from Clearco Products). Spray on the surface to be welded. Spatter falling on treated area will not adhere; simply brush spatter away.

Blue Coat 5000 is a One-Part Anti-Spatter; no mixing is required. Some special features include:

PERFORMANCE

Synthetic Release Agents prevent hot spatter from sticking to the substrate. Spatter brushes off easily - No Grinding is involved.

PAINTABLE

Blue Coat 5000 washes off easily with water or solvents. Even if Blue Coat is not removed, **IT WILL NOT INTERFERE WITH PAINT.**

ECONOMICAL

Available in 5, 30 & 55 Gallon Drums. **FREE SPIGOT OR DRUM PUMP SENT WITH INITIAL ORDER.**
