

Product Information

C-5 Anti Spatter Concentrate

Concentrated Anti-Spatter...simply add water to make finished product

Concentrated to save you money... just add water.

C-5 is concentrated – simply add water & apply with a hand sprayer.

C-5 Anti-Spatter Concentrate is a 1-part 100% Liquid Anti-Spatter. It contains Synthetic Release Agents to prevent hot spatter from sticking.

To apply, simply spray on the surface to be protected; spatter falling on treated area will not adhere...simply brush spatter away.

C-5 Anti Spatter Does Not Contain any Silicones – **It is Paintable and will not cause “Fisheyes”**. Compared with any aerosol, C-5 will outperform these products while providing an average Savings of 50% or more.

COST SAVINGS

C-5 is concentrated to save you money. By shipping a Concentrated Product instead of a finished product, we eliminate 80% of the weight. This is a tremendous reduction on freight cost, making C-5 the most economical Anti-Spatter Compound on the market

KITS (1-gallon of C-5 in a 5-gallon cube):

Quantity	Finished Product
1- gallon kit	1-gallon kit makes 5-gallons of finished product by filling with cool tap water
4 x 1-gallon kits	
F.O.B. Phila, PA U.S.A.	

CUBES: Mix 1 Part Concentrate to 4 Parts Water

Quantity	Finished Product
5-gallon cube	Makes 25-gallons Finished Product
55-gallon drum	Makes 275-gallons Finished Product
F.O.B. Phila, PA U.S.A.	

Specifications

SPECIFICATIONS

Performance

C-5's Synthetic Release Agents prevent hot spatter from sticking to the substrate. Spatter brushes off easily - No Grinding is involved.

PAINTABLE

C-5 washes off easily with water or solvents. Even if C-5 is not removed, IT WILL NOT INTERFERE WITH PAINT

HOW TO USE:

C-5 Concentrate is available in 5-gallon cubes & 55-gallon drums. E-Z Pour Spigots and drum pumps are available from Clearco Products. It's easy to use.

To mix 5-gallon kits: Simply fill container with cool tap water.

To mix (5-gallon and 55-gallon drum): Mix 1-part concentrate to 4-parts water.

Dispense C-5 Concentrate from the container into a spray bottle (also available from Clearco Products). Spray on the surface to be protected. Spatter falling on treated area will not adhere; simply brush spatter away.
