SECTION VI: ACCIDENTAL RELEASE MEASURES

Containment/Clean up:

Note: See section 8 for Personal Protective Equipment for Spills. Call (1-800-255-3924), if additional information is required.

SECTION VII: HANDLING AND STORAGE

Use with adequate ventilation. Traces of benzene (carcinogen) may form if heated in air above 300F (149C). Provide ventilation to control vapor exposure within inhalation guidelines when handling at elevated temperatures. Review the OSHA benzene regulation for detailed information on safe handling requirements. Avoid eye contact.

Use reasonable care and store away from oxidizing materials.

SECTION VIII: EXPOSURE CONTROLS/PERSONAL PROTECTION

Component Exposure Limits
There are no components with workplace exposure limits.

Engineering Controls
Local Ventilation: None should be needed.
General Ventilation: Recommended

Personal Protective Equipment for Routine Handling
Eyes: Use proper protection- safety glasses as a minimum
Skin: Washing at mealtime and end of shift is adequate
Suitable Gloves: Handle in accordance with good industrial hygiene and safety practices
Inhalation: No respiratory protection should be needed.
Suitable Respirator: None should be needed

Personal Protective Equipment for Spills
Eyes: Use proper protection- safety glasses as a minimum
Skin: Washing at mealtime and end of shift is adequate
Inhalation/Suitable Respirator: No respiratory protection should be needed
Precautionary Measures: Avoid eye contact. Use reasonable care

Comments: Traces of benzene (carcinogen) may form if heated in air above 300 F (149C). Provide ventilation to control vapor exposure within inhalation guidelines when handling at elevated temperatures. Review the OSHA benzene regulation for detailed information on safe handling requirements.

Note: These precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications may require added precautions. For further information regarding aerosol inhalation toxicity, please refer to the guidance document regarding the use of silicone-based materials in aerosol applications that has been developed by the silicone industry (www.SEHSC.com) or contact Clearco Products customer service.
