

CLEARCO KNIFE LUBRICANT

Reduces friction & provides a sharper cut

Clearco Knife Lubricant is a blend of stainless waxes, sterates and oils that provide a light lubrication to the cutting knife and will not stain the fabric. The lubricant reduces friction between the fabric and the cutting knife, and will not stain the fabric. This provides a sharper cut of the material and cools the knife to prevent the ends from fusing.

To apply, spray directly on the blade as needed. If Drip Attachment is available, fill cup and adjust needle valve to let a few drops onto the blade.

Clearco Knife Lubricant is available in 5, 30 & 55-gallon drums. With initial order, a Free Drum Pump or EZ Pour Spigot (5-gallon) is available.

PROPERTIES

Form	Liquid
Appearance	Clear
Color Stability	Excellent
Resistance to Degradation	Excellent
Solubility	Dissolves in many Solvents – It is not water-soluble
Availability	5-Gallon Cube Containers with Spigot. 55 Gallon Drums
Flammability	HMIS Rating 2

CAS INFORMATION

Petroleum Solvent.....	CAS-6472-48-9
Petroleum Mineral Oil.....	CAS-8042-47-5
Paraffin Wax.....	CAS-64742-43-4
Stearate, Methyl.....	CAS112-61-8
