

Product Information

ROBOTIC ANTI-SPATTER 285

Prevents spatter from sticking in robotic welding applications.

Robotic Anti Spatter 285 is a one-part - 100% Liquid Anti-Spatter; no mixing is required. It contains Synthetic Release Agents to prevent hot spatter from sticking to inside of Robotic Welding Nozzle. The Low Viscosity Fluid can be atomized in Misting system, or applied by Dipping. Spatter forming inside nozzle will not adhere and can be easily removed.

Robotic 285 Does Not contain any Silicones or Ozone depleting chemicals – **It is Paintable.** Compared with any aerosols, it will outperform these products while providing an average Savings of 40% or more.

Robotic 285 contains no flammable ingredients and no odorous solvents; it is a much better choice for applications in enclosed environments.

FEATURES

- 100% Liquid
- One-Part:
- Non-Flammable
- Paintable
- No Mixing
- No Odor

SPECIFICATIONS

Appearance	Clear Liquid
Odor	Very Mild
Water Solubility	Non Soluble
Specific Gravity	1.06
Freezing Point	Will not freeze
Flammable	No
Combustible	No
