

Yarn Lubricant

Formulated to reduce static and friction for Yarns, Threads and Fabrics

Use on Yarns, Threads & Fabrics...5-gallon cubes come with EZ Pour spigot

Yarn Lubricant is a Non-Reactive Mixture of Waxes and Stainless Liquid Lubricants for Yarns, Threads and Fabrics.

Yarn Lubricant deposits a film of stainless lubricant on the yarn that reduces friction and static, and allows the yarn to run smoothly without broken ends or frayed filaments.

This product can also be used as a Sewing Thread Lubricant. Simply dip entire cone into lubricant for 30 seconds. This keeps the needle cool and prevents thread breakage and skipping

Features

- *Reduces Friction and Static*
- *Prevents Broken ends and frayed filaments*
- *Non Silicone - Will not interfere with dye or adhesives*
- *Prevents Thread Breakage and Skipping*
- *Easier Needle Penetration*
- *Stainless – Odorless*
- *Lubricates needle*

PROPERTIES

Product Code	Yarn
Form	Liquid
Appearance	Clear-Colorless
Weight per Gallon	6.5 lbs.
Color Stability	Excellent
Resistance to Degradation	Excellent
Solubility	Oil Soluble– It is not water soluble
Availability	5-gallon cube 55-gallon drums
Flammability	HMIS Rating 2

How to Apply **Dipping:**

Dip the entire cone into the Textile Lubricant. It takes about 20 seconds to penetrate a one lb. cone of cotton thread. Synthetic threads may require a second application.

Kiss Roller/ Wick:

Clearco Textile Lubricant can be applied by Kiss Roll in winding. Pickup levels will vary according application and type of yarn. There is no need to heat the lubricant in the trough. In fact, heating is not recommended. Wick lubrication or immersion can also be used.

Spray:

Spray directly on yarn in looms and warp. Also, spray peddles and parts that come in contact with yarn.
