

# ***SAFETY DATA SHEET***

## ***PSF-0.65cSt Pure Silicone Fluid***

Data Prepared: January 12, 2022

### **SECTION 1: Identification**

Product name : PSF-0.65cSt Pure Silicone Fluid

Product code : PSF-0.65cSt

#### **Manufacturer or supplier details**

Company name of supplier : Clearco Products Co Inc.

Address : 15 York Rd.  
Willow Grove, PA 19090 U.S.A.

Telephone : 215-366-7860

Emergency Telephone : CHEM TEL: 1-800-255-3924 (DOMESTIC)  
+01-813-248-0585 (INTERNATIONAL)

#### **Recommended use of the chemical and restrictions on use**

Recommended use : Process regulators, other polymerization or vulcanization processes  
Intermediate  
Cosmetics  
Lubricants and lubricant additives  
Anti-set off and adhesive agents

---

### **SECTION 2: Hazards identification**

#### **GHS classification in accordance with 29 CFR 1910.1200**

Flammable liquids : Category 2

#### **GHS label elements**

Hazard pictograms :

Signal Word : Danger

Hazard Statements : H225 Highly flammable liquid and vapor.

Precautionary Statements:

#### **Prevention:**

P210 Keep away from heat/sparks/open flames/hot surfaces.

No smoking  
P233 Keep container tightly closed.  
P240 Ground/bond container and receiving equipment.  
P241 Use explosion-proof electrical/ventilating/ lighting/ equipment.  
P242 Use only non-sparking tools.  
P243 Take precautionary measures against static discharge.  
P280 Wear protective gloves/eye protection/face protection.

**Reponse:**

P303 + P361 + P353 IF ON SKIN (or hair): Take of immediately all contaminated clothing. Rinse skin with water/shower.

**Storage:**

P403 + P235 Store in a well-ventilated place. Keep cool.

**Disposal:**

P501 Dispose of contents/container to an approved waste disposal plant.

**Other hazards**

Static –accumulating flammable liquid  
Vapors may form explosive mixture with air.

---

**SECTION 3: Composition/information on ingredients**

Substance/Mixture : Substance  
Chemical nature : Silicone  
Substance name : Hexamethyldisiloxane  
CAS-No : 107-46-0

**Hazardous ingredients**

| Chemical name        | CAS-No.  | Concentration (% w/w) |
|----------------------|----------|-----------------------|
| Hexamethyldisiloxane | 107-46-0 | >=89 - <=100          |

---

**SECTION 4: First aid measures**

|                         |   |
|-------------------------|---|
| If inhaled              | : If inhaled, remove to fresh air.<br>Get medical attention if symptoms occur.  |
| In case of skin contact | : In case of contact, immediately flush skin with plenty of water.<br>Remove contaminated clothing and shoes.             |
| In case of eye contact  | : Flush eyes with water as a precaution.<br>Get medical attention if irritation develops and persists.                    |
| If swallowed            | : If swallowed, DO NOT induce vomiting.<br>Get medical attention if symptoms occur.<br>Rinse mouth thoroughly with water. |
| Most important symptoms | : None known.   |

and effects, both acute and delayed

Protection of first-aiders

: No special precautions are necessary for first aid responders.

Notes to physician

: Treat symptomatically and supportively.

---

#### SECTION 5: Firefighting measures

Suitable extinguishing media

: Water spray  
Alcohol-resistant foam  
Carbon dioxide  
Dry chemical

Unsuitable extinguishing media

: High volume water jet

Specific hazards during fire fighting

: Do not use a solid water stream as it may scatter and spread fire.  
Flash back possible over considerable distance.  
Vapors may form explosive mixtures with air.  
Exposure to combustion products may be a hazard to health.

Hazardous combustion products

: Carbon oxides  
Silicon oxides  
Formaldehyde

Specific extinguishing methods

: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Remove undamaged containers from fire area if it safe to do so.  
Evacuate area.

Special protective equipment for firefighters

: Wear self-contained breathing apparatus for firefighting if necessary.  
Use personal protective equipment.

---

#### SECTION 6: Accidental release measures

Personal precautions,  
protective equipment  
and emergency procedures:

: Remove all sources of ignition  
Ventilate the area  
Follow safe handling advise and personal protective equipment recommendations.

Environmental precautions:

Discharge into the environment must be avoided.  
Prevent further leakage or spillage if safe to do so.  
Prevent spreading over a wide area (e.g. by containment or oil barriers).  
Retain and dispose of contaminated wash water.  
Local authorities should be advised if significant spillages cannot be contained.

Methods and material for containment and cleaning up:

Non-sparking tools should be used.  
Soak up with inert absorbent material  
Suppress (knock down) gases/vapors/mists with water spray jet.  
For large spills, provide diking or other appropriate container.  
Clean up remaining materials from spill with suitable absorbent.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.  
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

---

**SECTION 7: Handling and storage**

Technical measures

: Ensure all equipment is electrically grounded before beginning transfer operations.  
This material can accumulate static charge due to its inherent physical properties and can therefore cause an electrical ignition source to vapors. In order to prevent a fire hazard, as bonding and grounding may be insufficient to remove static electricity, it is necessary to provide an inert gas purge before beginning transfer operations.  
Restrict flow velocity in order to reduce the accumulation of static electricity.

Local/Total ventilation

: Use with local exhaust ventilation.  
Use only in an area equipped with explosion-proff exhaust ventilation if advised by assessment of the local exposure potential.

Advice on safe handling

: Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment.  
Non-sparking tools should be used.  
Keep container tightly closed  
Keep away from heat and sources of ignition  
Take precautionary measures against static discharges

Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage

: Keep in properly labeled containers  
Keep tightly closed  
Keep in a cool, well-ventilated place  
Store in accordance with the particular national regulations  
Keep away from heat and sources of ignition

Materials to avoid

: Do not store with the following product types:  
Strong oxidizing agents  
Organic peroxides  
Flammable solids  
Pyrophoric liquids  
Pyrophoric solids  
Self-heating substances and mixtures  
Substances and mixtures which in contact with water emit flammable gases  
Explosives  
Gases

---

**SECTION 8: Exposure controls/personal protection**

**Ingredients with workplace control parameters**

| Ingredients          | CAS-No.  | Value type<br>(Form of exposure) | Control parameters/Permissible concentration | Basis   |
|----------------------|----------|----------------------------------|--|---------|
| Hexamethyldisiloxane | 107-46-0 | TWA                              | 50 ppm                                       | DCC OEL |

**Engineering measures**

: Processing may form hazardous compounds (see section 10)  
Minimize workplace exposure concentrations  
Use only in an area equipped with explosion-proof exhaust ventilation if advised by assessment of the local exposure potentiation  
Use with local exhaust ventilation

**Personal protective equipment**

Respiratory protection

: General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respiratory regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance

|                            |  |
|----------------------------|--|
|                            | where air purifying respirators may not provide adequate protection.   |
| Hand protection<br>Remarks | : Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. Take note that the product is flammable, which may impact the selection of hand protection. Wash hands before breaks and at the end of workday.   |
| Eye protection             | : Wear the following personal protective equipment:<br>Safety glasses  |
| Skin and body protection   | : Select appropriate protective clothing based on chemical resistance data and as assessment of the local exposure potential.<br>Wear the following personal protective equipment:<br>Flame retardant antistatic protecting clothing, unless assessment demonstrates that the risk of explosive atmospheres or flash fires is low<br>Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc.)  |
| Hygiene measures           | : Ensure that eye flushing systems and safety showers are located close to the working place.<br>When using do not eat, drink or smoke.<br>Wash contaminated clothing before re-use<br>These precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications may require added precautions.<br>For further information regarding the use of silicones/ organic oils in consumer aerosol applications, please refer to the guidance document regarding the use of these type of materials in consumer aerosol applications that has been developed by the silicone industry or contact Clearco Products. |

---

## SECTION 9: Physical and chemical properties

|                              |                     |
|------------------------------|---------------------|
| Appearance                   | : liquid            |
| Color:                       | : colourless        |
| Odor                         | : No data available |
| Odor Threshold               | : No data available |
| pH                           | : No data available |
| Melting point/freezing point | : No data available |

|   |   |
|---|---|
| Initial Boiling point and boiling range         | : > 35°C  |
| Flash point                                     | : -1°C<br>Method: Pensky-Martens closed cup   |
| Evaporation rate                                | : No data available   |
| Flammability (solid, gas)                       | : Not applicable  |
| Self-ignition                                   | : The substance or mixture is not classified as pyrophoric. The substance or mixture is not classified as self heating. |
| Upper explosion limit/Upper flammability limit  | : No data available   |
| Lower explosion limit/ Lower flammability limit | : No data available   |
| Vapour pressure                                 | : No data available   |
| Relative vapor density                          | : No data available   |
| Relative density                                | : 0.760   |
| Solubility(ies)                                 |   |
| Water solubility                                | : No data available   |
| Partition coefficient:<br>n-octanol/water       | : No data available   |
| Auto-ignition temperature                       | : No data available   |
| Decomposition temperature                       | : No data available   |
| Viscosity                                       |   |
| Viscosity kinematic                             | : 0.65 cSt (25°C)   |
| Explosive properties                            | : Not explosive   |
| Oxidizing properties                            | : The substance or mixture is not classified as oxidizing.  |
| Molecular weight                                | : No data available   |
| Particle size                                   | : Not applicable  |

---

## SECTION 10: Stability and reactivity

|   |  |
|---|--|
| Reactivity                              | : Not classified as a reactivity hazard.   |
| Chemical stability                      | : Stable under normal conditions.  |
| Possibility of hazardous reactions      | : Highly flammable liquid and vapor.<br>Vapors may form explosive mixture with air<br>Use at elevated temperatures may form highly hazardous compounds.<br>Can react with strong oxidizing agents<br>Hazardous decomposition products will be formed at elevated temperatures/ |
| Conditions to avoid                     | : Handling operations that can promote accumulation of static charges<br>Heat, flames and sparks.  |
| Incompatible materials                  | : Oxidizing agents   |
| <b>Hazardous decomposition products</b> |  |
| Thermal decomposition                   | : Formaldehyde   |

---

**SECTION 11: Toxicological information****Information on likely routes of exposure**

Inhalation  
Skin contact  
Ingestion  
Eye contact

**Acute toxicity**

Not classified based on available information.

**Ingredients:****Hexamethyldisiloxane:**

|                           |  |
|---------------------------|--|
| Acute oral toxicity       | : LD50 (Rat): >16 ml/kg<br>Assessment: The substance or mixture has no acute oral toxicity<br>Remarks: On basis of test data   |
| Acute inhalation toxicity | : LC50 (Rat): 15956 ppm<br>Exposure time: 4h<br>Test atmosphere: vapor<br>Assessment: The substance or mixture has not acute inhalation toxicity<br>Remarks: On basis of test data |
| Acute dermal toxicity     | : LD50 (Rat): >2,000 mg/kg<br>Assessment: The substance or mixture has no acute dermal toxicity<br>Remarks: On basis of test data  |

**Skin corrosion/irritation**

Not classified based on available information

**Ingredients:****Hexamethyldisiloxane:**

Species: Rabbit  
Result: No skin irritation  
Remarks: On basis of test data

**Serious eye damage/eye irritation**

Not classified based on available information

**Ingredients:****Hexamethyldisiloxane:**

Species: Rabbit  
Result: No eye irritation  
Remarks: On basis of test data

**Respiratory or skin sensitization****Skin sensitization**

Not classified based on available information

**Respiratory sensitization**

Not classified based on available information

**Ingredients:**

**Hexamethyldisiloxane:**

Assessment: Does not cause skin sensitization

Test Type: Human repeat insult patch test (HRIPT)

Species: Humans

Result: Negative

Remarks: On basis of test data

**Germ cell mutagenicity**

Not classified based on available information

**Ingredients:**

**Hexamethyldisiloxane:**

Genotoxicity in vitro

: Test type: Bacterial reverse mutation assay (AMES)

Result: negative

Remarks: On basis of test data.

Test Type: Chromosome aberration test in vitro

Result: negative

Remarks: On basis of test data

Test Type: Mutagenicity (in vitro mammalian cytogenetic test)

Result: negative

Remarks: On basis of test data

Genotoxicity in vivo

: Test type: Mutagenicity (in vivo mammalian bone-marrow Cytogenetic test, chromosomal analysis)

Species: Rat

Application Route: Intraperitoneal injection

Result: negative

Remarks: On basis of test data

Germ cell mutagenicity- Assessment

: Animal testing did not show any mutagenic effects

**Carcinogenicity**

Not classified based on available information

**Ingredients:**

**Hexamethyldisiloxane:**

Species: Rat

Application Route: inhalation (vapor)

Result: negative

Remarks: On basis of test data

|  |  |
|--|--|
| Carcinogenicity-Assessment   | : Animal testing did not show any carcinogenic effects   |
| <b>IARC</b>  | No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.   |
| <b>OSHA</b>  | No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.   |
| <b>NTP</b>   | No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.   |
| <b>Reproductive toxicity</b>   |  |
| Not classified based on available information  |  |
| <b><u>Ingredients:</u></b>   |  |
| <b>Hexamethyldisiloxane:</b>   |  |
| Effects on fertility   | : Test Type: Two-generation reproduction toxicity study<br>Species: Rat, male and female<br>Application Route: inhalation (vapor)<br>Symptoms: No effects on fertility<br>Remarks: On basis of test data         |
| Effects on fetal development   | : Test Type: Two-generation reproduction toxicity study<br>Species: Rat, male and female<br>Application Route: inhalation (vapor)<br>Symptoms: No effects on fetal development<br>Remarks: On basis of test data |
| Reproductive toxicity- Assessment  | : No evidence of adverse effects on sexual function and fertility or on development, based on animal experiments.  |
| <b>STOT-single exposure</b>  |  |
| Not classified based on available information.   |  |
| <b>STOT-repeated exposure</b>  |  |
| Not classified based on available information.   |  |
| <b><u>Ingredients:</u></b>   |  |
| <b>Hexamethyldisiloxane:</b>   |  |
| Routes of exposure: Ingestion  |  |
| Assessment: No significant health effects observed in animals at concentrations of 100 mg/kg bw or less. |  |
| Routes of exposure: Inhalation (vapor)   |  |
| Assessment: No significant health effects observed in animals at concentrations of 1 mg/l/6h/d or less.  |  |
| Routes of exposure: Skin contact   |  |
| Assessment: No significant health effects observed in animals at concentrations of 200 mg/kg bw or less. |  |
| <b>Repeated dose toxicity</b>  |  |
| <b><u>Ingredients:</u></b>   |  |
| <b>Hexamethyldisiloxane:</b>   |  |
| Species: Rat   |  |
| Application Route: Ingestion   |  |
| Remarks: On basis of test data   |  |

Species: Rat  
Application Route: Inhalation (vapor)  
Remarks: On basis of test data

Species: Rat  
Application Route: Skin contact  
Remarks: On basis of test data

**Aspiration toxicity**

Not classified based on available information

**Further information**

**Ingredients:**

**Hexamethyldisiloxane:**

Remarks: This material contains hexamethyldisiloxane (HMDS). Repeated inhalation exposure in rats to HMDS resulted in protoporphyrin accumulation in the liver. Without knowledge of the specific mechanism leading to the protoporphyrin accumulation the relevance of this finding to humans is unknown.

---

**SECTION 12: Ecological information**

**Ecotoxicity**

**Ingredients:**

**Hexamethyldisiloxane:**

|  |  |
|--|--|
| Toxicity to fish   | : NOEC (Oncorhynchus mykiss(rainbow trout)): 0.37 mg/l<br>Exposure time: 96 h<br><br>LC50 (oncorhynchus mykiss (rainbow trou)): 0.46 mg/l<br>Exposure time: 96 h<br>Remarks: On basis of test data |
| Toxicity to algae  | : EC50 (Selenastrum capricornutum (green algae)): >0.55 mg/l<br>Remarks: No toxicity at the limit of solubility<br>On basis of test data.  |
| M-Factor (Acute aquatic toxicity)                                      | : 1  |
| Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) | : NOEC (Daphnia): 0.32 mg/l<br>Exposure time: 21 d<br>NOEC (Daphnia magna (Water flea)): 0.1 mg/l<br>Exposure time: 21 d<br>Method: OECD Test Guideline 211  |

| Chronic aquatic toxicity               | : Toxic to aquatic life with long lasting effects  |
| <b>Persistence and degradability</b>   |  |
| <b>Ingredients:</b>                    |  |
| <b>Hexamethyldisiloxane:</b>           |  |
| Biodegradability                       | : Result: Not readily biodegradable<br>Biodegradation: 20%<br>Exposure time: 28 d<br>Method: OECD Test Guideline 301C                |
| <b>Bioaccumulative potential</b>       |  |
| <b>Ingredients:</b>                    |  |
| <b>Hexamethyldisiloxane:</b>           |  |
| Bioaccumulation                        | : Species: Cyprinus carpio (Carp)<br>Biocentration factor (BCF): 2,410<br>Concentration: 0.04 mg/l<br>Remarks: On basis of test data |
| Partition coefficient: n-octanol/water | : log Pow: 5.06 (20°C)<br>Remarks: On basis of test data   |
| <b>Mobility in soil</b>                |  |
| No data available                      |  |
| <b>Other adverse effects</b>           |  |
| No data available                      |  |

---

## SECTION 13: Disposal considerations

|   |  |
|---|--|
| <b>Disposal methods</b>                       |  |
| Resource Conservation and Recovery Act (RCRA) | : When a decision is made to discard this material as supplied, it is clasffied as a RCRA hazardous waste.   |
| Waste Code                                    | : D001: Ignitability   |
| Waste from residues                           | : Dispose of in accordance with local regulations  |
| Contaminated packaging                        | : Empty containers should be taken to an approved waste handling site for recycling or dispsal.<br>Empty containers retain residue and can be dangerous<br>Do not pressurize, cut, weld, braze, solder, drill, grind or expose such containters to heat, flame, sparks or other sources of ignition. They may explode and cause injury and/or death. |

If not otherwise specified: Dispse of as unused product.
